Brian A. Freno

9652 Andesite Dr NW • Albuquerque, NM 87114 • 210-274-2861 • brianfreno.github.io • brianfreno@gmail.com

Education

Texas A&M University, College Station, TX

- **Doctor of Philosophy** in Aerospace Engineering — December 2013 — GPA: 4.000
- **Master of Science** (Thesis) in Aerospace Engineering — May 2010 — GPA: 3.869
- **Bachelor of Science** in Aerospace Engineering, Mathematics Minor — December 2008 — GPA: 3.425

Work Experience

Sandia National Laboratories, Albuquerque, NM — **October 2015 – Present**
Principal Member of the Technical Staff — Verification, Validation, Uncertainty Quantification, and Credibility Processes

- Developed approaches to engineer features that, with machine-learning regression, can accurately predict the error incurred by reduced-order models and other approximate solutions to parameterized systems of nonlinear equations
- Formulated methods for computing symmetric triangle quadrature rules for arbitrary functions
- Created techniques to perform code verification in computational fluid dynamics (CFD) for hypersonic reacting flow in thermochemical non-equilibrium and decomposing and non-decomposing ablation
- Served as VVUQ reviewer for Oak Ridge National Laboratory and Los Alamos National Laboratory
- Serving as principal investigator for the development of novel code-verification and numerical-integration techniques for computational electromagnetics (CEM)
- Strengthening Academic Alliance with Texas A&M as adjunct professor through teaching, mentoring, and recruiting
- Serving as reviewer for NNSA Advanced Simulation and Computing PSAAP III and PSAAP IV

Halliburton, Houston, TX — **June 2014 – September 2015**
Senior Technical Professional — Production Enhancement – Advanced Computational Sciences

- Developed a parallel third-order-accurate compact incompressible viscous flow solver for non-uniform grids
- Created a mesh deformation algorithm for hydraulic fracture propagation that resulted in a patent

Texas A&M University, College Station, TX — **Fall 2008 – Spring 2014**
Graduate Research Assistant — Department of Aerospace Engineering

- Developed reduced-order models for nonlinear structural dynamics and fluid mechanics for computational aeroelasticity and created software to produce 3D surface plots and movies — Spring 2009 – Spring 2014
- Organized the Aerospace Engineering Study Abroad Program in Brazil, learned basic Portuguese — Summer 2010
- Served as teaching assistant for junior-level propulsion class in Brazil — Summer 2010
- Served as teaching and assistant occasional lecturer for graduate-level finite element course — Spring 2009
- Served as grader for senior-level numerical simulation course — Fall 2008

NASA Marshall Space Flight Center, Huntsville, AL — **Summers 2012 & 2013**
Graduate Student Researchers Program Fellow — Fluid Dynamics Branch

- Conducted CFD reduced-order modeling research as part of NASA Graduate Student Researchers Program Fellowship

Lockheed Martin Missiles and Fire Control, Orlando, FL — **Summers 2007 & 2008**
Summer Intern — Aerodynamics Department

- Developed 2D and 3D, steady and unsteady, rigid and flexible panel codes and created GUI
- Produced and analyzed aerodynamic performance plots of missile CFD, DATCOM, and wind tunnel data

Standard Aero, San Antonio, TX — **Summers 2005 & 2006**
Summer Intern — Reliability Engineering

- Developed algorithms, implementations, and communication strategies for Reliability Centered Maintenance

Patent

- B. Freno, S. Madasu, A. Lin, Simulating hydraulic fracture propagation using dynamic mesh deformation, US Patent No. 10,947,820, Issued March 16, 2021

Theses

- B. Freno, Reduced-order models for computational aeroelasticity, PhD dissertation, Texas A&M University, December 2013
- B. Freno, An efficient nonlinear structural dynamics solver for use in computational aeroelastic analysis, Master's thesis, Texas A&M University, May 2010

Honors & Awards

- **American Institute of Aeronautics and Astronautics** Associate Fellow — Jan. 2024
- **American Society of Mechanical Engineers**
  - Heat Transfer Division Outstanding Reviewer — Nov. 2021
  - Reviewer of the Year, *Journal of Verification, Validation and Uncertainty Quantification* — Dec. 2020
- **Halliburton** Invention Disclosure Award — Sep. 2015
- **NASA** Graduate Student Researchers Program Fellowship — Sep. 2011
- **Sandia National Laboratories**

– Individual Performance Award	Aug. 2017	Dec. 2018	Sep. 2020	Jun. 2023	May 2024
– Employee Recognition Awards Nominee		Jan. 2020	Feb. 2021	Feb. 2023	Feb. 2024
– High Performance Incentive Plan Award (ended 2023)	Dec. 2019	Oct. 2020	Oct. 2021	Oct. 2022	Oct. 2023
– Thunderbird Kudos Award				Oct. 2022	Nov. 2022
– Innovation and Intellectual Property Award					Nov. 2021
– Critical Skills Retention Incentive					Sep. 2021

- **Texas A&M University Department of Aerospace Engineering**
  - Outstanding Young Aerospace Engineer Distinguished Alumni Award — Nov. 2022
  - Outstanding Achievement Award – Aerodynamics & Propulsion — May 2014
  - Outstanding Doctoral Student Award — May 2014
  - Boeing Graduate Fellowship — Jan. 2009
  - Stan H. Lowy Award for Excellence in Aerospace Design — Dec. 2008

Professional Societies

- Associate Fellow, **American Institute of Aeronautics and Astronautics**
- Member, **American Society of Mechanical Engineers**
- Member, **Society for Industrial and Applied Mathematics**

Presented Conference Papers

- B. Freno, B. Carnes, N. Matula, "Nonintrusive manufactured solutions for ablation," *2021 AIAA SciTech Forum*, AIAA Paper 2021-1174, January 2021
- B. Freno, B. Carnes, V. Weirs, "Code-verification techniques for hypersonic reacting flows in thermochemical nonequilibrium," *2019 AIAA Aviation Forum*, AIAA Paper 2019-3705, Dallas, TX, June 2019
- B. Freno, N. Matula, R. Fontenot, P. Cizmas, "The use of dynamic basis functions in proper orthogonal decomposition," *2014 AIAA SciTech Forum*, AIAA Paper 2014-1436, National Harbor, MD, January 2014
- B. Freno, P. Cizmas, "A proper orthogonal decomposition method for nonlinear flows with deforming meshes," *51^{st} AIAA Aerospace Sciences Meeting*, AIAA Paper 2013-0055, Grapevine, TX, January 2013
- B. Freno, T. Brenner, P. Cizmas, "Proper orthogonal decomposition applied to the Reynolds-averaged Navier–Stokes equations," *50^{th} AIAA Aerospace Sciences Meeting*, AIAA Paper 2012-314, Nashville, TN, January 2012
- B. Freno, R. Brown, P. Cizmas, "The role of structural nonlinearities in wind turbine blade aeroelastic analysis," *49^{th} AIAA Aerospace Sciences Meeting*, AIAA Paper 2011-995, Orlando, FL, January 2011

Professional Service

- **Adjunct Professor**: Texas A&M University Department of Aerospace Engineering — Dec. 2022 – Present
- **Associate Editor**: ASME Journal of Verification, Validation and Uncertainty Quantification — Feb. 2021 – Present
- **Journal Reviewer**: Nov. 2011 – Present
  - Journal of Computational Physics (2)
  - Computer Methods in Applied Mechanics and Engineering
  - International Journal for Numerical Methods in Fluids
  - Engineering Analysis with Boundary Elements (2)
  - IEEE Transactions on Antennas & Propagation
  - Physics of Fluids (2)
  - AIAA Journal
  - ASME Journal of VVUQ (4)
  - Computational and Applied Mathematics (2)
  - Inverse Problems in Science & Engineering
- **Minisymposium Organizer**:
  - WCCM/PANACM: Verification techniques in computational physics and applied mathematics — Jul. 2024
  - ASME VVUQ Symposium: Computational electromagnetics, plasma, radiation — May 2024
  - WCCM/APCOM: Verification techniques in computational physics and applied mathematics — Jul. 2022
  - ASME VVUQ Symposium: VVUQ for advanced manufacturing, plasma, radiation transport — May 2022
  - SIAM UQ: Verification techniques in computational physics and applied mathematics — Apr. 2022
  - ASME V&V Symposium: VVUQ for artificial intelligence and machine learning models — May 2021
  - SIAM CSE: Numerical methods for integral and integro-differential equations — Mar. 2021
  - WCCM/ECCOMAS: Verification techniques in computational mechanics and applied mathematics — Jan. 2021
  - WCCM/ECCOMAS: Improving predictive capabilities through model error quantification — Jan. 2021
  - ASME V&V Symposium: VVUQ for computational electromagnetics, plasma, radiation transport — May 2020
- **Committees**:
  - AIAA Fluid Dynamics Technical Committee, Computational Fluid Dynamics Subcommittee — May 2022 – Present
    - Organizer of AIAA Aviation Forum Flow Visualization Showcase — Jun. 2023
    - Associate organizer for AIAA Aviation Forum
      - CFD: Algorithms and Applications of Reduced Order Modeling — Jun. 2023
      - CFD: Verification, Validation, and Uncertainty Quantification — Jun. 2023
    - Session chair
      - AIAA SciTech Forum: Turbulence, Model Closures, and Surrogates — Jan. 2024
      - AIAA Aviation Forum: CFD: Verification, Validation, and Uncertainty Quantification — Jun. 2023
      - AIAA Aviation Forum: Stability and Transition: Hypersonic — Jun. 2022
    - Extended abstract reviewer
      - AIAA SciTech Forum — Jan. 2023 – Jan. 2024
      - AIAA AVIATION Forum — Jun. 2023 – Jul. 2024
  - University of New Mexico Hospital Patient and Family Advisory Committee — Jun. 2024 – Present
- **Program Reviewer**:
  - NNSA ASC Predictive Science Academic Alliance Program (PSAAP) III and IV — Jun. 2020 – Present
  - Los Alamos National Laboartory Level 2 Milestone — Aug. 2024
  - Sandia National Laboratories Laboratory Directed Research & Development (LDRD)
    - Nuclear Deterrence Investment Area — May 2018
    - Computing and Information Sciences Investment Area — May 2023
  - Texas A&M Engineering Project Showcase — Apr. 2022
- **Guest Lecturer**:
  - TAMU ENGR 681-602: Professional Development for Non-Academic Career Path Doctoral Students — Fall 2019
  - TAMU AERO 306: Aerospace Structural Analysis II — Fall 2013
  - TAMU AERO 430: Numerical Simulation — Fall 2013
  - TAMU MEMA 646: Introduction to the Finite Element Method — Spring 2012
- **Mentor**: Undergraduate and graduate students, with an emphasis on under-represented groups

Presentations

- World Congress on Comp. Mechanics / Pan American Congress on Comp. Mechanics, Vancouver, BC — Jul. 2024
- ASME Verification, Validation, and Uncertainty Quantification Symposium, College Station, TX — May 2024
- ASME International Mechanical Engineering Congress and Exposition, New Orleans, LA — Nov. 2023
- IEEE Int. Sym. on Antennas and Propagation and North American Radio Sci. Meeting, Portland, OR — Jul. 2023
- ASME Verification, Validation, and Uncertainty Quantification Symposium, Baltimore, MD — May 2023
- World Congress on Computational Mechanics / Asian Pacific Congress on Computational Mechanics — Jul. 2022
- IEEE Int. Sym. on Antennas and Propagation and North American Radio Sci. Meeting, Denver, CO — Jul. 2022
- Sandia National Laboratories Engineering Sciences Summer Institute Seminar Series — Jun. 2022
- ASME Verification, Validation, and Uncertainty Quantification Symposium, College Station, TX — May 2022
- SIAM Conference on Uncertainty Quantification, Atlanta, GA — Apr. 2022
- Texas A&M University Industrial and Applied Mathematics Seminar Series, College Station, TX — Jan. 2022
- Texas A&M University Aerospace Practice and Professional Engineer Lecture Series, College Station, TX — Jan. 2022
- International Conference on Electromagnetics in Advanced Applications — Aug. 2021
- Sandia National Laboratories Engineering Sciences Summer Institute Seminar Series — Jul. 2021
- Oak Ridge National Laboratory Computational Sciences and Engineering Division — Jun. 2021
- ASME Verification and Validation Symposium: VVUQ for Computational Electromagnetics — May 2021
- ASME Verification and Validation Symposium: VVUQ for Heat Transfer — May 2021
- ASME Verification and Validation Symposium: VVUQ for Fluid Dynamics — May 2021
- Texas A&M University Aerospace Engineering Seminar Series — Apr. 2021
- SIAM Conference on Computational Science and Engineering — Mar. 2021
- World Congress on Computational Mechanics / European Congress on Computational Methods — Jan. 2021
- AIAA SciTech Forum — Jan. 2021
- IEEE International Symposium on Antennas and Propagation and North American Radio Science Meeting — Jul. 2020
- Texas A&M University Aerospace Engineering Seminar Series, College Station, TX — Jan. 2020
- Texas A&M University College of Engineering, College Station, TX — Sep. 2019
- Sandia National Laboratories Machine Learning and Deep Learning Workshop, Albuquerque, NM — Aug. 2019
- AIAA Aviation Forum, Dallas, TX — Jun. 2019
- Sandia National Laboratories Engineering Sciences External Review Board, Albuquerque, NM — Apr. 2019
- Texas A&M University College of Engineering, College Station, TX — Mar. 2019
- Texas A&M University Industrial and Applied Mathematics Seminar Series, College Station, TX — Mar. 2019
- SIAM Conference on Computational Science and Engineering, Spokane, WA — Feb. 2019
- Sandia National Laboratories Center for Computing Research Seminar, Albuquerque, NM — Oct. 2018
- World Congress on Computational Mechanics, New York, NY — Jul. 2018
- SIAM Conference on Uncertainty Quantification, Anaheim, CA — Apr. 2018
- University of Florida and Eglin AFB Research and Engineering Education Facility Campus, Shalimar, FL — May 2014
- AIAA SciTech Forum, National Harbor, MD — Jan. 2014
- AIAA Aerospace Sciences Meeting, Grapevine, TX — Jan. 2013
- AIAA Aerospace Sciences Meeting, Nashville, TN — Jan. 2012
- AIAA Aerospace Sciences Meeting, Orlando, FL — Jan. 2011
- University of Campinas (Unicamp), Campinas, São Paulo, Brazil — Jul. 2010

Research Experience

- **Physics Disciplines**
  - Computational fluid dynamics (CFD)
    - Compressible and incompressible
    - Viscous and inviscid
  - Ablation and heat transfer
  - Nonlinear structural dynamics
  - Aeroelasticity
  - Computational electromagnetics (CEM)
- **Meshing**
  - Elliptic and Schwarz–Christoffel grid generation
  - Mesh deformation
- **Surrogate Modeling**
  - Reduced-order modeling
  - Proper orthogonal decomposition
  - Machine learning
- **Numerical Methods**
  - Code verification
  - Post-processing
  - Numerical integration

Student Activities and Service

- Sigma Gamma Tau (National Aerospace Engineering Honor Society) – President, Vice President (Texas A&M Chapter)
- American Institute of Aeronautics and Astronautics – Chair, Vice Chair (Texas A&M Chapter)
- Texas A&M University Student Engineers' Council – Legislation Committee
- Texas A&M University Student Senate – Caucus Leader and Senator for College of Engineering
- Texas A&M University Wind Symphony – Performed in Carnegie Hall and Europe
- Volunteering – Church and community
- Boy Scouts of America – Eagle Scout, 4 Palms, Order of the Arrow
