

BRIAN A. FRENO

9652 Andesite Dr NW • Albuquerque, NM 87114 • 210-274-2861 • brianfreno.github.io • brianfreno@gmail.com

Education

Texas A&M University, College Station, TX

- | | | |
|--|---------------|------------|
| • Doctor of Philosophy in Aerospace Engineering | December 2013 | GPA: 4.000 |
| • Master of Science (Thesis) in Aerospace Engineering | May 2010 | GPA: 3.869 |
| • Bachelor of Science in Aerospace Engineering, Mathematics Minor | December 2008 | GPA: 3.425 |

Work Experience

Sandia National Laboratories, Albuquerque, NM

October 2015 – Present

Principal Member of the Technical Staff Verification, Validation, Uncertainty Quantification, and Credibility Processes

- Developed approaches to engineer features that, with machine-learning regression, can accurately predict the error incurred by reduced-order models and other approximate solutions to parameterized systems of nonlinear equations
- Formulated methods for computing symmetric triangle quadrature rules for arbitrary functions
- Created techniques to perform code verification in computational fluid dynamics (CFD) for hypersonic reacting flow in thermochemical non-equilibrium and decomposing and non-decomposing ablation
- Serving as principal investigator for the development of novel code-verification and numerical-integration techniques for computational electromagnetics (CEM)
- Providing VVUQ leadership to Oak Ridge National Laboratory for computational physics
- Strengthening Academic Alliance with Texas A&M as adjunct professor through teaching, mentoring, and recruiting
- Serving as reviewer for NNSA Advanced Simulation and Computing PSAAP III

Halliburton, Houston, TX

June 2014 – September 2015

Senior Technical Professional

Production Enhancement – Advanced Computational Sciences

- Developed a parallel third-order-accurate compact incompressible viscous flow solver for non-uniform grids
- Created a mesh deformation algorithm for hydraulic fracture propagation that resulted in a patent

Texas A&M University, College Station, TX

Fall 2008 – Spring 2014

Graduate Research Assistant

Department of Aerospace Engineering

- Developed reduced-order models for nonlinear structural dynamics and fluid mechanics for computational aeroelasticity and created software to produce 3D surface plots and movies Spring 2009 – Spring 2014
- Lead and planned the Aerospace Engineering Study Abroad Program in Brazil, learned basic Portuguese Summer 2010
- Served as teaching assistant for junior-level propulsion class in Brazil Summer 2010
- Served as teaching and assistant occasional lecturer for graduate-level finite element course Spring 2009
- Served as grader for senior-level numerical simulation course Fall 2008

NASA Marshall Space Flight Center, Huntsville, AL

Summers 2012 & 2013

Graduate Student Researchers Program Fellow

Fluid Dynamics Branch

- Conducted CFD reduced-order modeling research as part of NASA Graduate Student Researchers Program Fellowship

Lockheed Martin Missiles and Fire Control, Orlando, FL

Summers 2007 & 2008

Summer Intern

Aerodynamics Department

- Developed 2D and 3D, steady and unsteady, rigid and flexible panel codes and created GUI
- Produced and analyzed aerodynamic performance plots of missile CFD, DATCOM, and wind tunnel data

Standard Aero, San Antonio, TX

Summers 2005 & 2006

Summer Intern

Reliability Engineering

- Developed algorithms, implementations, and communication strategies for Reliability Centered Maintenance

Patent

- B. Freno, S. Madasu, A. Lin, Simulating hydraulic fracture propagation using dynamic mesh deformation, US Patent No. 10,947,820, Issued March 16, 2021

Theses

- B. Freno, Reduced-order models for computational aeroelasticity, PhD dissertation, Texas A&M University, December 2013
- B. Freno, An efficient nonlinear structural dynamics solver for use in computational aeroelastic analysis, Master’s thesis, Texas A&M University, May 2010

Awards

- Specific Project or Task (SPOT) Award, **Sandia National Laboratories** June 2023
- Employee Recognition Awards Nominee, **Sandia National Laboratories** February 2023
- Thunderbird Kudos Award: Impactful Technical Insight, **Sandia National Laboratories** November 2022
- Outstanding Young Aerospace Engineer Distinguished Alumni Award, **Texas A&M University** November 2022
- High Performance Incentive Plan Award (FY22), **Sandia National Laboratories** October 2022
- Thunderbird Kudos Award: Engaging with Texas A&M Talent, **Sandia National Laboratories** October 2022
- Heat Transfer Division Outstanding Reviewer, **American Society of Mechanical Engineers** November 2021
- Innovation and Intellectual Property Award, **Sandia National Laboratories** November 2021
- High Performance Incentive Plan Award (FY21), **Sandia National Laboratories** October 2021
- Employee Incentive Program Discretionary Award, **Sandia National Laboratories** September 2021
- Employee Recognition Awards Nominee, **Sandia National Laboratories** February 2021
- Journal of VVUQ Reviewer of the Year, **American Society of Mechanical Engineers** December 2020
- High Performance Incentive Plan Award (FY20), **Sandia National Laboratories** October 2020
- Certificate of Excellence, **Sandia National Laboratories** September 2020
- Employee Recognition Awards Nominee, **Sandia National Laboratories** January 2020
- High Performance Incentive Plan Award (FY19), **Sandia National Laboratories** December 2019
- Specific Project or Task (SPOT) Award, **Sandia National Laboratories** December 2018
- Specific Project or Task (SPOT) Award, **Sandia National Laboratories** August 2017
- Invention Disclosure Award, **Halliburton** September 2015
- Outstanding Achievement Award – Aerodynamics & Propulsion **Texas A&M Aerospace Engineering** May 2014
- Outstanding Doctoral Student Award, **Texas A&M Aerospace Engineering** May 2014
- **NASA** Graduate Student Researchers Program Fellowship September 2011
- **Texas A&M Aerospace Engineering** Boeing Graduate Fellowship January 2009
- Stan H. Lowy Award for Excellence in Aerospace Design, **Texas A&M Aerospace Engineering** December 2008

Presented Conference Papers

- B. Freno, B. Carnes, N. Matula, “Nonintrusive manufactured solutions for ablation,” *2021 AIAA SciTech Forum*, AIAA Paper 2021-1174, January 2021
- B. Freno, B. Carnes, V. Weirs, “Code-verification techniques for hypersonic reacting flows in thermochemical nonequilibrium,” *2019 AIAA Aviation Forum*, AIAA Paper 2019-3705, Dallas, TX, June 2019
- B. Freno, N. Matula, R. Fontenot, P. Cizmas, “The use of dynamic basis functions in proper orthogonal decomposition,” *2014 AIAA SciTech Forum*, AIAA Paper 2014-1436, National Harbor, MD, January 2014
- B. Freno, P. Cizmas, “A proper orthogonal decomposition method for nonlinear flows with deforming meshes,” *51st AIAA Aerospace Sciences Meeting*, AIAA Paper 2013-0055, Grapevine, TX, January 2013
- B. Freno, T. Brenner, P. Cizmas, “Proper orthogonal decomposition applied to the Reynolds-averaged Navier-Stokes equations,” *50th AIAA Aerospace Sciences Meeting*, AIAA Paper 2012-314, Nashville, TN, January 2012
- B. Freno, R. Brown, P. Cizmas, “The role of structural nonlinearities in wind turbine blade aeroelastic analysis,” *49th AIAA Aerospace Sciences Meeting*, AIAA Paper 2011-995, Orlando, FL, January 2011

Professional Service

- **Adjunct Professor:** Texas A&M University Department of Aerospace Engineering
- **Associate Editor:** ASME Journal of Verification, Validation and Uncertainty Quantification
- **Journal Reviewer:**
 - Journal of Computational Physics (2) – Physics of Fluids
 - Computer Methods in Applied Mechanics and Engineering – AIAA Journal
 - International Journal for Numerical Methods in Fluids – ASME Journal of VVUQ (3)
 - Engineering Analysis with Boundary Elements – Computational and Applied Mathematics (2)
 - IEEE Transactions on Antennas & Propagation – Inverse Problems in Science & Engineering
- **Minisymposium Organizer:**
 - WCCM/APCOM: Verification techniques in computational physics and applied mathematics July 2022
 - ASME VVUQ Symposium: VVUQ for advanced manufacturing, plasma, radiation transport May 2022
 - SIAM UQ: Verification techniques in computational physics and applied mathematics April 2022
 - ASME V&V Symposium: VVUQ for artificial intelligence and machine learning models May 2021
 - SIAM CSE: Numerical methods for integral and integro-differential equations March 2021
 - WCCM/ECCOMAS: Verification techniques in computational mechanics and applied mathematics January 2021
 - WCCM/ECCOMAS: Improving predictive capabilities through model error quantification January 2021
 - ASME V&V Symposium: VVUQ for computational electromagnetics, plasma, radiation transport May 2020
- **Committee:** AIAA Fluid Dynamics Technical Committee, Computational Fluid Dynamics Subcommittee
 - Reviewer of extended abstracts for AIAA SciTech Forum January 2024
 - Associate organizer for Aviation Forum: CFD: Algorithms and Applications of Reduced Order Modeling June 2023
 - Associate organizer for Aviation Forum: CFD: Verification, Validation, and Uncertainty Quantification June 2023
 - Organizer of Aviation Forum Flow Visualization Showcase June 2023
 - Session chair for Aviation Forum: CFD: Verification, Validation, and Uncertainty Quantification June 2023
 - Reviewer of extended abstracts for AIAA AVIATION Forum June 2023
 - Reviewer of extended abstracts for AIAA SciTech Forum January 2023
 - Session chair for Aviation Forum: Stability and Transition: Hypersonic June 2022
- **Program Reviewer:**
 - NNSA Advanced Simulation and Computing Predictive Science Academic Alliance Program (PSAAP) III
 - Sandia National Laboratories Laboratory Directed Research & Development (LDRD)
 - * Nuclear Deterrence Investment Area May 2018
 - * Computing and Information Sciences Investment Area May 2023
 - Texas A&M Engineering Project Showcase April 2022
- **Guest Lecturer:**
 - TAMU ENGR 681-602: Professional Development for Non-Academic Career Path Doctoral Students Fall 2019
 - TAMU AERO 306: Aerospace Structural Analysis II Fall 2013
 - TAMU AERO 430: Numerical Simulation Fall 2013
 - TAMU MEMA 646: Introduction to the Finite Element Method Spring 2012
- **Mentor:** Undergraduate and graduate students, with an emphasis on under-represented groups

Professional Societies

- Senior Member, **American Institute of Aeronautics and Astronautics**
- Member, **American Society of Mechanical Engineers**
- Member, **Society for Industrial and Applied Mathematics**

Presentations

- ASME International Mechanical Engineering Congress and Exposition, New Orleans, LA October 2023
- IEEE International Symposium on Antennas and Propagation and North American Radio Science Meeting July 2023
- ASME Verification, Validation, and Uncertainty Quantification Symposium, Baltimore, MD May 2023
- World Congress on Computational Mechanics / Asian Pacific Congress on Computational Mechanics July 2022
- IEEE International Symposium on Antennas and Propagation and North American Radio Science Meeting July 2022
- Sandia National Laboratories Engineering Sciences Summer Institute Seminar Series June 2022
- ASME Verification, Validation, and Uncertainty Quantification Symposium, College Station, TX May 2022
- SIAM Conference on Uncertainty Quantification, Atlanta, GA April 2022
- Texas A&M University Industrial and Applied Mathematics Seminar Series, College Station, TX January 2022
- Texas A&M University Aerospace Practice and Professional Engineer Lecture Series, College Station, TX January 2022
- International Conference on Electromagnetics in Advanced Applications (special session) August 2021
- Sandia National Laboratories Engineering Sciences Summer Institute Seminar Series July 2021
- Oak Ridge National Laboratory June 2021
- ASME Verification and Validation Symposium: VVUQ for Computational Electromagnetics May 2021
- ASME Verification and Validation Symposium: VVUQ for Heat Transfer May 2021
- ASME Verification and Validation Symposium: VVUQ for Fluid Dynamics May 2021
- Texas A&M University Aerospace Engineering Seminar Series April 2021
- SIAM Conference on Computational Science and Engineering March 2021
- World Congress on Computational Mechanics / European Congress on Computational Methods January 2021
- AIAA SciTech Forum January 2021
- IEEE International Symposium on Antennas and Propagation and North American Radio Science Meeting July 2020
- Texas A&M University Aerospace Engineering Seminar Series, College Station, TX January 2020
- Texas A&M University College of Engineering, College Station, TX September 2019
- Sandia National Laboratories Machine Learning and Deep Learning Workshop, Albuquerque, NM August 2019
- AIAA Aviation Forum, Dallas, TX June 2019
- Sandia National Laboratories Engineering Sciences External Review Board, Albuquerque, NM April 2019
- Texas A&M University College of Engineering, College Station, TX March 2019
- Texas A&M University Industrial and Applied Mathematics Seminar Series, College Station, TX March 2019
- SIAM Conference on Computational Science and Engineering, Spokane, WA February 2019
- Sandia National Laboratories Center for Computing Research Seminar, Albuquerque, NM October 2018
- World Congress on Computational Mechanics, New York, NY July 2018
- SIAM Conference on Uncertainty Quantification, Anaheim, CA April 2018
- University of Florida and Eglin AFB Research and Engineering Education Facility Campus, Shalimar, FL May 2014
- AIAA SciTech Forum, National Harbor, MD January 2014
- AIAA Aerospace Sciences Meeting, Grapevine, TX January 2013
- AIAA Aerospace Sciences Meeting, Nashville, TN January 2012
- AIAA Aerospace Sciences Meeting, Orlando, FL January 2011
- University of Campinas (Unicamp), Campinas, São Paulo, Brazil July 2010

Research Experience

- **Physics Disciplines**
 - Computational fluid dynamics (CFD)
 - Compressible and incompressible
 - Viscous and inviscid
 - Ablation and heat transfer
 - Nonlinear structural dynamics
 - Aeroelasticity
 - Computational electromagnetics (CEM)
- **Meshing**
 - Elliptic and Schwarz–Christoffel grid generation
 - Mesh deformation
- **Surrogate Modeling**
 - Reduced-order modeling
 - Proper orthogonal decomposition
 - Machine learning
- **Numerical Methods**
 - Code verification
 - Post-processing
 - Numerical integration

Student Activities and Service

- Sigma Gamma Tau (National Aerospace Engineering Honor Society) – President, Vice President (Texas A&M Chapter)
- American Institute of Aeronautics and Astronautics – Chair, Vice Chair (Texas A&M Chapter)
- Texas A&M University Student Engineers’ Council – Legislation Committee
- Texas A&M University Student Senate – Caucus Leader and Senator for College of Engineering
- Texas A&M University Wind Symphony – Performed in Carnegie Hall and Europe
- Volunteering – Church and community
- Boy Scouts of America – Eagle Scout, 4 Palms, Order of the Arrow
