

BRIAN A. FRENO

9652 Andesite Dr NW • Albuquerque, NM 87114 • 210-274-2861 • brianfreno.github.io • brianfreno@gmail.com

Education

Texas A&M University, College Station, TX

- | | | |
|--|---------------|------------|
| • Doctor of Philosophy in Aerospace Engineering | December 2013 | GPA: 4.000 |
| • Master of Science (Thesis) in Aerospace Engineering | May 2010 | GPA: 3.869 |
| • Bachelor of Science in Aerospace Engineering, Mathematics Minor | December 2008 | GPA: 3.425 |

Work Experience

Sandia National Laboratories, Albuquerque, NM

October 2015 – Present

Principal Member of the Technical Staff, Intralevel 3

Verification, Validation, and Uncertainty Quantification

- Devised approaches to engineer features that, with machine-learning regression, can accurately predict the error incurred by reduced-order models and other approximate solutions to parameterized systems of nonlinear equations
- Formulated methods for computing symmetric triangle quadrature rules for arbitrary functions
- Created techniques to perform code verification in computational fluid dynamics (CFD) for hypersonic reacting flow in thermochemical non-equilibrium, as well as decomposing and non-decomposing ablation
- Served as VVUQ reviewer for Oak Ridge National Laboratory and Los Alamos National Laboratory
- Leading the development of innovative code-verification and integration techniques for computational electromagnetics (CEM), which included the requirement-exceeding completion of an NNSA ASC Level 2 Milestone, as PI
- Strengthening the Academic Alliance with Texas A&M as adjunct professor through lecturing, mentoring, and recruiting
- Serving as reviewer and chair for NNSA Advanced Simulation and Computing programs and milestone

Halliburton, Houston, TX

June 2014 – September 2015

Senior Technical Professional

Production Enhancement – Advanced Computational Sciences

- Developed a parallel third-order-accurate compact incompressible viscous flow solver for non-uniform grids
- Invented an efficient mesh deformation algorithm for hydraulic fracture propagation that yielded a patent

Texas A&M University, College Station, TX

Fall 2008 – Spring 2014

Graduate Research Assistant

Department of Aerospace Engineering

- Developed reduced-order models for nonlinear structural dynamics and fluid mechanics for computational aeroelasticity and created software to produce 3D surface plots and movies
Spring 2009 – Spring 2014
- Organized the Aerospace Engineering Study Abroad Program in Brazil, learned basic Portuguese
Summer 2010
- Served as teaching assistant for junior-level propulsion class in Brazil
Summer 2010
- Served as teaching assistant and occasional lecturer for graduate-level finite element course
Spring 2009
- Served as grader for senior-level numerical simulation course
Fall 2008

NASA Marshall Space Flight Center, Huntsville, AL

Summers 2012 & 2013

Graduate Student Researchers Program Fellow

Fluid Dynamics Branch

- Conducted CFD reduced-order modeling research as part of NASA Graduate Student Researchers Program Fellowship

Lockheed Martin Missiles and Fire Control, Orlando, FL

Summers 2007 & 2008

Summer Intern

Aerodynamics Department

- Developed 2D and 3D, steady and unsteady, rigid and flexible panel codes and created GUI
- Produced and analyzed aerodynamic performance plots of missile CFD, DATCOM, and wind tunnel data

Standard Aero, San Antonio, TX

Summers 2005 & 2006

Summer Intern

Reliability Engineering

- Developed algorithms, implementations, and communication strategies for Reliability Centered Maintenance

Patent

- B. Freno, S. Madasu, A. Lin, Simulating hydraulic fracture propagation using dynamic mesh deformation, US Patent No. 10,947,820, Issued March 16, 2021

Theses

- B. Freno, Reduced-order models for computational aeroelasticity, PhD dissertation, Texas A&M University, Dec. 2013
- B. Freno, An efficient nonlinear structural dynamics solver for use in computational aeroelastic analysis, Master’s thesis, Texas A&M University, May 2010

Honors & Awards

- **American Institute of Aeronautics and Astronautics** Associate Fellow Jan. 2024
- **American Society of Mechanical Engineers**
 - Heat Transfer Division Outstanding Reviewer Nov. 2021
 - Reviewer of the Year, *Journal of Verification, Validation, and Uncertainty Quantification* Dec. 2020
- **Halliburton** Invention Disclosure Award Sep. 2015
- **NASA** Graduate Student Researchers Program Fellowship Sep. 2011
- **Sandia National Laboratories**
 - Thunderbird Kudos Award Oct. 2022 Nov. 2022 Jun. 2025
 - Employee Recognition Awards Nominee Jan. 2020 Feb. 2021 Feb. 2023 Feb. 2024 Feb. 2025
 - Individual Performance Award Aug. 2017 Dec. 2018 Sep. 2020 Jun. 2023 May 2024 Oct. 2024
 - High Performance Incentive Plan Award (ended 2023) Dec. 2019 Oct. 2020 Oct. 2021 Oct. 2022 Oct. 2023
 - Innovation and Intellectual Property Award Nov. 2021
 - Critical Skills Retention Incentive Sep. 2021
- **Texas A&M University Department of Aerospace Engineering**
 - Outstanding Young Aerospace Engineer Distinguished Alumni Award Nov. 2022
 - Outstanding Achievement Award – Aerodynamics & Propulsion May 2014
 - Outstanding Doctoral Student Award May 2014
 - Boeing Graduate Fellowship Jan. 2009
 - Stan H. Lowy Award for Excellence in Aerospace Design Dec. 2008

Professional Societies

- Associate Fellow, **American Institute of Aeronautics and Astronautics**
- Member, **American Society of Mechanical Engineers**
- Member, **Society for Industrial and Applied Mathematics**

Presented Conference Papers

- B. Freno, B. Carnes, N. Matula, “Nonintrusive manufactured solutions for ablation,” *2021 AIAA SciTech Forum*, AIAA Paper 2021-1174, Jan. 2021
- B. Freno, B. Carnes, V. Weirs, “Code-verification techniques for hypersonic reacting flows in thermochemical nonequilibrium,” *2019 AIAA Aviation Forum*, AIAA Paper 2019-3705, Dallas, TX, Jun. 2019
- B. Freno, N. Matula, R. Fontenot, P. Cizmas, “The use of dynamic basis functions in proper orthogonal decomposition,” *2014 AIAA SciTech Forum*, AIAA Paper 2014-1436, National Harbor, MD, Jan. 2014
- B. Freno, P. Cizmas, “A proper orthogonal decomposition method for nonlinear flows with deforming meshes,” *51st AIAA Aerospace Sciences Meeting*, AIAA Paper 2013-0055, Grapevine, TX, Jan. 2013
- B. Freno, T. Brenner, P. Cizmas, “Proper orthogonal decomposition applied to the Reynolds-averaged Navier–Stokes equations,” *50th AIAA Aerospace Sciences Meeting*, AIAA Paper 2012-314, Nashville, TN, Jan. 2012
- B. Freno, R. Brown, P. Cizmas, “The role of structural nonlinearities in wind turbine blade aeroelastic analysis,” *49th AIAA Aerospace Sciences Meeting*, AIAA Paper 2011-995, Orlando, FL, Jan. 2011

Professional Service

- **Deputy Director:** AIAA Aerospace Sciences Group Sep. 2025 – Present
- **Adjunct Professor:** Texas A&M University Department of Aerospace Engineering Dec. 2022 – Present
- **Associate Editor:** ASME Journal of Verification, Validation, and Uncertainty Quantification Feb. 2021 – Present
- **Journal Reviewer:** Nov. 2011 – Present
 - AIAA Journal – IEEE Transactions on Antennas & Propagation
 - AIAA Journal of Spacecraft and Rockets – Int. Journal for Numerical Methods in Fluids
 - ASME Journal of VVUQ (4) – Inverse Problems in Science & Engineering
 - Computational and Applied Mathematics (2) – Journal of Computational Physics (2)
 - Computer Methods in Applied Mechanics and Engineering – Physics of Fluids (3)
 - Engineering Analysis with Boundary Elements (2)
- **Minisymposium/Session Organizer:**
 - AIAA SciTech: Verification techniques in computational physics Jan. 2026
 - WCCM/PANACM: Verification techniques in computational physics and applied mathematics Jul. 2024
 - ASME VVUQ Symposium: Computational electromagnetics, plasma, radiation May 2024
 - WCCM/APCOM: Verification techniques in computational physics and applied mathematics Jul. 2022
 - ASME VVUQ Symposium: VVUQ for advanced manufacturing, plasma, radiation transport May 2022
 - SIAM UQ: Verification techniques in computational physics and applied mathematics Apr. 2022
 - ASME V&V Symposium: VVUQ for artificial intelligence and machine learning models May 2021
 - SIAM CSE: Numerical methods for integral and integro-differential equations Mar. 2021
 - WCCM/ECCOMAS: Verification techniques in computational mechanics and applied mathematics Jan. 2021
 - WCCM/ECCOMAS: Improving predictive capabilities through model error quantification Jan. 2021
 - ASME V&V Symposium: VVUQ for computational electromagnetics, plasma, radiation transport May 2020
- **Committees:**
 - ASME VVUQ in Computational Fluid Dynamics and Heat Transfer Subcommittee Jun. 2025 – Present
 - University of New Mexico Hospital Patient and Family Advisory Committee Jun. 2024 – Present
 - AIAA Fluid Dynamics Technical Committee, CFD Subcommittee May 2022 – May 2025
 - Organizer of AIAA Aviation Forum Flow Visualization Showcase Jun. 2023
 - Associate organizer for AIAA Aviation (CFD: Reduced-order modeling & CFD: VVUQ) Jun. 2023
 - Session chair for AIAA SciTech and Aviation Jun. 2022 – Jan. 2024
 - Reviewer for AIAA Aviation 2024 / SciTech 2025 Best Paper Award Mar. 2025
 - Associate organizer for AIAA SciTech Jan. 2026
 - Reviewer for AIAA SciTech and Aviation Jan. 2023 – Jan. 2026
- **Program Reviewer:**
 - Review chair, NNSA ASC Level 2 Milestone: multi-fidelity & ROM methods for reentry UQ Oct. 2024 – Present
 - NNSA ASC Predictive Science Academic Alliance Program (PSAAP) III & IV, RT & TST Jun. 2020 – Present
 - Los Alamos National Laboratory Level 2 Milestone Aug. 2024
 - Sandia National Laboratories Laboratory Directed Research & Development (LDRD)
 - Nuclear Deterrence Investment Area May 2018
 - Computing and Information Sciences Investment Area May 2023
 - Texas A&M Engineering Project Showcase Apr. 2022
- **Guest Lecturer:**
 - TAMU ENGR 681-602: Professional Development for Non-Academic Career Path Doctoral Students Fall 2019
 - TAMU AERO 306: Aerospace Structural Analysis II Fall 2013
 - TAMU AERO 430: Numerical Simulation Fall 2013
 - TAMU MEMA 646: Introduction to the Finite Element Method Spring 2012
- **Mentor:** Early-career individuals and students, with an emphasis on under-represented groups in STEM

Presentations

• Direct Simulation Monte Carlo Workshop, Santa Fe, NM	Sep. 2025
• General Atomics Aeronautical Systems	Sep. 2025
• IEEE Int. Sym. on Antennas and Propagation and North American Radio Sci. Meeting, Ottawa, ON	Jul. 2025
• ASME Verification, Validation, and Uncertainty Quantification Symposium, College Station, TX	Apr. 2025
• SIAM Conference on Computational Science and Engineering, Fort Worth, TX	Mar. 2025
• Texas A&M University Aerospace Practitioner and Professional Engr. Lecture Series, College Station, TX	Sep. 2024
• World Congress on Comp. Mechanics / Pan American Congress on Comp. Mechanics, Vancouver, BC	Jul. 2024
• ASME Verification, Validation, and Uncertainty Quantification Symposium, College Station, TX	May 2024
• ASME International Mechanical Engineering Congress and Exposition, New Orleans, LA	Nov. 2023
• IEEE Int. Sym. on Antennas and Propagation and North American Radio Sci. Meeting, Portland, OR	Jul. 2023
• ASME Verification, Validation, and Uncertainty Quantification Symposium, Baltimore, MD	May 2023
• World Congress on Computational Mechanics / Asian Pacific Congress on Computational Mechanics	Jul. 2022
• IEEE Int. Sym. on Antennas and Propagation and North American Radio Sci. Meeting, Denver, CO	Jul. 2022
• Sandia National Laboratories Engineering Sciences Summer Institute Seminar Series	Jun. 2022
• ASME Verification, Validation, and Uncertainty Quantification Symposium, College Station, TX	May 2022
• SIAM Conference on Uncertainty Quantification, Atlanta, GA	Apr. 2022
• Texas A&M University Industrial and Applied Mathematics Seminar Series, College Station, TX	Jan. 2022
• Texas A&M University Aerospace Practitioner and Professional Engr. Lecture Series, College Station, TX	Jan. 2022
• International Conference on Electromagnetics in Advanced Applications	Aug. 2021
• Sandia National Laboratories Engineering Sciences Summer Institute Seminar Series	Jul. 2021
• Oak Ridge National Laboratory Computational Sciences and Engineering Division	Jun. 2021
• ASME Verification and Validation Symposium: VVUQ for Fluid Dynamics, Heat Transfer, Electromagnetics	May 2021
• Texas A&M University Aerospace Engineering Seminar Series	Apr. 2021
• SIAM Conference on Computational Science and Engineering	Mar. 2021
• World Congress on Computational Mechanics / European Congress on Computational Methods	Jan. 2021
• AIAA SciTech Forum	Jan. 2021
• IEEE International Symposium on Antennas and Propagation and North American Radio Science Meeting	Jul. 2020
• Texas A&M University Aerospace Engineering Seminar Series, College Station, TX	Jan. 2020
• Texas A&M University College of Engineering, College Station, TX	Sep. 2019
• Sandia National Laboratories Machine Learning and Deep Learning Workshop, Albuquerque, NM	Aug. 2019
• AIAA Aviation Forum, Dallas, TX	Jun. 2019
• Sandia National Laboratories Engineering Sciences External Review Board, Albuquerque, NM	Apr. 2019
• Texas A&M University College of Engineering, College Station, TX	Mar. 2019
• Texas A&M University Industrial and Applied Mathematics Seminar Series, College Station, TX	Mar. 2019
• SIAM Conference on Computational Science and Engineering, Spokane, WA	Feb. 2019
• Sandia National Laboratories Center for Computing Research Seminar, Albuquerque, NM	Oct. 2018
• World Congress on Computational Mechanics, New York, NY	Jul. 2018
• SIAM Conference on Uncertainty Quantification, Anaheim, CA	Apr. 2018
• University of Florida and Eglin AFB Research and Engineering Education Facility Campus, Shalimar, FL	May 2014
• AIAA SciTech Forum, National Harbor, MD	Jan. 2014
• AIAA Aerospace Sciences Meeting, Grapevine, TX	Jan. 2013
• AIAA Aerospace Sciences Meeting, Nashville, TN	Jan. 2012
• AIAA Aerospace Sciences Meeting, Orlando, FL	Jan. 2011
• University of Campinas (Unicamp), Campinas, São Paulo, Brazil	Jul. 2010

Research Experience

- **Physics Disciplines**
 - Computational fluid dynamics (CFD)
 - Compressible and incompressible
 - Viscous and inviscid
 - Ablation and heat transfer
 - Nonlinear structural dynamics
 - Aeroelasticity
 - Computational electromagnetics (CEM)
- **Meshing**
 - Elliptic and Schwarz–Christoffel grid generation
 - Mesh deformation
- **Surrogate Modeling**
 - Reduced-order modeling
 - Proper orthogonal decomposition
 - Machine learning
- **Numerical Methods**
 - Code verification
 - Post-processing
 - Numerical integration

Student Activities and Service

- Sigma Gamma Tau (National Aerospace Engineering Honor Society) – President, Vice President (Texas A&M Chapter)
- American Institute of Aeronautics and Astronautics – Chair, Vice Chair (Texas A&M Chapter)
- Texas A&M University Student Engineers' Council – Legislation Committee
- Texas A&M University Student Senate – Caucus Leader and Senator for College of Engineering
- Texas A&M University Wind Symphony – Performed in Carnegie Hall and Europe
- Volunteering – Church and community
- Boy Scouts of America – Eagle Scout, 4 Palms, Order of the Arrow
